

Tahmid Rahman Chowdhury

ABOUT ME

Being a frontend developer with knowledge in HTML, CSS, and JavaScript, as well as familiarity with Material UI, I am dedicated to always expanding my skills and staying current with the latest front-end development tools. I am now improving my knowledge by learning React, Next.js, Redux, Tailwind CSS, and honing my problem-solving abilities with JavaScript. Because of my commitment to learning and remaining current with industry trends, I am able to design unique and user-friendly web apps that meet and surpass customer expectations. My problem-solving abilities enable me to discover and resolve difficult issues in a timely and efficient manner.

PROJECTS

Pizza Park

Link: <https://github.com/CloudClown/PizzaPark>
